Key Responsibility:

- *Developed user-centric interfaces ensuring optimal user experience across devices.*
- *Collaborated with UX/UI designers to translate wireframes and prototypes into functional web applications.*
- *Utilized HTML5, CSS3, and JavaScript frameworks (e.g., React) to write clean and efficient code.*
- *Optimized web applications for faster loading times and improved performance.*
- *Ensured cross-browser compatibility through thorough testing and debugging.*
- *Managed version control using Git for collaborative development.*
- *Implemented accessibility best practices (WCAG) to enhance usability for all users.*
- *Participated in regular maintenance, code reviews, and bug fixes.*
- *Engaged in Agile development practices, contributing to timely project delivery.*

Web Developer(intern) | PENTATECH, Ghana

Key Responsibility:

- *Assist in the development and maintenance of websites and web applications.*
- *Create wireframes, mockups, and UI specification documentation to guide design and development.*
- *Collaborate with senior developers and team members to implement project features.*
- *Conduct testing and debugging to ensure website functionality across various devices and browsers.*

- *Participate in the implementation of new technologies and frameworks to enhance web projects.*
- *Maintain project documentation, including code comments and user manuals.*
- *Support client projects by adhering to specifications and timelines.*
- *Engage in code reviews and provide constructive feedback to improve coding practices.*
- *Implement SEO best practices to improve web visibility and search rankings.*
- *Utilize version control systems like Git for effective code management.*
- *Collect and analyze user feedback during testing phases to improve user experience.*
- *Attend regular team meetings to discuss project status, challenges, and further tasks.*

WordPress Developer | DIMASNG, Lagos

08/24 – 10/24

Key Responsibility:

- Developed and maintained a user-friendly WordPress website to facilitate online ticket sales for women's events.
- Designed and implemented custom themes and plugins to enhance website functionality and improve user engagement.
- Integrated e-commerce solutions for seamless ticket purchasing, including payment gateways and inventory management.
- Collaborated with marketing teams to create promotional content and landing pages that drive ticket sales for upcoming events.
- Ensured website performance optimization and mobile responsiveness to provide an excellent user experience across all devices.
- Conducted regular updates and maintenance to the website, including security enhancements and performance monitoring.
- Implemented SEO best practices to increase online visibility and attract a larger audience to women's events.
- Managed event registration processes, including creating and updating event pages, managing attendee data, and sending confirmation emails.
- Developed and maintained analytics tracking to monitor ticket sales, user engagement, and overall website performance.
- Provided technical support and troubleshooting for users experiencing issues with the website or ticketing system.

Web Developer(intern) | INNKEEPER ACADEMY

05/24-07/24

Key Responsibility:

- *Domain registration and account setup for new web projects.*
- *Created wireframes, screen-flow diagrams, and UI specification documentation to guide design and development processes.*
- *Conceptualized, planned, and executed original designs for a wide range of website properties to meet diverse client needs.*

- *Installed programming languages and configurations necessary for cross-platform compatibility within the CMS environment.*
- *Designed and developed the Learning Management System (LMS) version 1.0 to facilitate online learning and training.*
- *Identified and eliminated website bugs to enhance overall user experience and functionality.*
- *Utilized site analytics and metrics to define objectives and monitor website success.*
- *Increased website security by keeping software up to date, using and safeguarding strong passwords, and actively monitoring for security vulnerabilities.*
